SUMMARY

Frontend Engineer with **4 years** of experience building scalable React.js and Next.js applications for consumer products. Experienced in frontend architecture, performance optimization, technical SEO, and delivering production-ready features for applications serving **300K+ monthly users**.

TECHNICAL SKILLS

Languages: JavaScript, TypeScript

Frontend: React.js, Next.js (App Router), HTML5, CSS3, Tailwind CSS, Material UI, Shadcn UI

State Management: Redux Toolkit, TanStack Query, React Hook Form, Zod

Performance & SEO: SSR, CSR, Dynamic Imports, Code Splitting, Core Web Vitals, Technical SEO

Backend: Node.js, Express.js, Prisma, PostgreSQL

Developer Tools: Git, Firebase, Postman, Codex, Claude Code

PROFESSIONAL EXPERIENCE

Software Development Engineer I

Sep 2024 – Present

Parentune

Gurgaon, Haryana

- Led the migration from React.js to Next.js App Router by defining SSR/CSR rendering strategy, routing, middleware, reusable architecture, and frontend development standards for a platform serving 300K+ monthly users.
- Built and maintained customer-facing modules including AI-powered chatbot, Community, Workshops, Authentication, User Profiles, Landing Pages, Voice Search, and Firebase Web Push Notifications.
- Built reusable UI components, shared layouts, custom hooks, API services, and form abstractions adopted across **20+ modules**, improving development consistency and maintainability.
- Integrated and maintained **100+ REST APIs** with caching strategies, Axios interceptors, dynamic routing, middleware, and Next-Intl internationalization.
- Reduced page load time by **50%** through image optimization, code splitting, lazy loading, dynamic imports, CDN delivery, and rendering optimizations, improving LCP and INP.
- Integrated AI chatbot APIs, Google OAuth, Firebase Web Push Notifications, and GA4 event tracking.

Frontend Developer

Jun 2022 – Aug 2024

Datametricks Consulting Pvt. Ltd.

Noida, Uttar Pradesh

- Built the complete consultation workflow for the SmartCare healthcare platform, enabling doctor-patient consultations, prescriptions, medicine recommendations, and appointment management.
- Independently developed the **Sales Tracky** platform from scratch with role-based access control, real-time geolocation tracking, reimbursement workflows, and sales hierarchy management.
- Built **Look Plex** from scratch using Next.js and Redux with reusable frontend components, responsive UI, and performance optimizations achieving Lighthouse scores above 90.
- Collaborated with backend engineers to integrate REST APIs, implemented reusable components, optimized application performance, and maintained responsive user interfaces across multiple production applications.

PROJECTS

Project Management Tool | [GitHub](#) | *React.js, Node.js, Express.js, Prisma, PostgreSQL*

- Developed a full-stack project management platform with JWT authentication, role-based access control (Admin, Manager, Employee), protected routing, and project/task management.
- Implemented advanced task filtering, search, reusable APIs, and responsive dashboards using React.js with Express.js and PostgreSQL.

EDUCATION

Jagannath Institute of Management Sciences

Delhi

Master's in Computer Application(MCA)

2021 – 2023

Hierank Business School

Noida

bachelor's in Computer Application(BCA)

2018 – 2021
